

Person: Ryan Abbott

Topic: Schooling

I moved to Frisco, Texas with my family just before Kindergarten. For Kindergarten, I went to Ashley Elementary school. I started in 2006. After Kindergarten, a new elementary school opened closer to where my family lived. This school was called Mooneyham. I went to Mooneyham from 1st grade until 5th grade. I went to Mooneyham from 2007-2012.

For middle school, I went to Maus from 2012-2015. I went to 6th, 7th, and 8th grade at Maus.

For high school, I went to Heritage my freshman year, from 2015-2016. After that, I transferred to Frisco High School from 2016-2019. I went to Heritage for 9th grade, and went to Frisco for 10th, 11th, and 12th grade.

For college, I attended the University of Oklahoma from 2019-2023. I majored in Astrophysics and minored in Mathematics, also earning a Data Science and Analytics certificate from the university. I graduated with distinction, and my GPA was 3.62.
